Medeco High-Security Cylinder Certification - August 12th

The Medeco High-Security Cylinder Certification Class covers the design and operation of door hardware cylinders and cam locks for the Original, Biaxial®, Medeco3, and Medeco M4 designs. Hands on exercises include: disassembly and assembly of a Medeco M4 mortise cylinder, decoding a Medeco M4 Biaxial key, (using a Medeco M4 key decoder), pinning a mortise cylinder to a change key, master keying a mortise cylinder, and pinning a switch lock plug to a sample key. Matrix master key chart reading, application of the MACS, specialty tools, lubrication, trouble shooting, key control programs, an overview of the product line, and interchangeable core pinning specifications are also covered.

6 Hours 9:00 am to 3:30 pm

Medeco x4 Certification - August 13th

Learn about the design and operation of Medeco small format interchangeable core cylinders. We'll also cover retrofit solutions and a brief overview of Medeco cylinders for SFIC applications.
This course is designed for Medeco Security Consultants and locksmiths.

As this an advanced course, we recommend completion of our instructorled Master Keying Workshop or equivalent experience prior to taking this course. Each student will decode a key and masterkey a SFIC.

4 Hours 9:00 am to 1:00 pm

Medeco XT - August 14th

Get an in-depth look at the Medeco XT Cylinder!
Learn how to order and setup Medeco XT cylinders including basic software training. You will be able to identify product features and benefits and properly order it.

This course is designed for Medeco Security Consultants and locksmiths.
As this an advanced course, we recommend completion of our instructorled Master Keying Workshop or equivalent experience prior to taking this course.

4 Hours 9:00 am to 1:00 pm
